Firewall™ UV Purification

- SARS-CoV-2 Test

- Certified by Water Quality Association (WQA) Gold Seal, and also certified NSF/ANSI-55A & NSF/ANSI-P231 by National Sanitation Foundation (NSF)

Carbon Multi-Filtration System

Remove most bacteria and contaminants whilst keeping natural minerals and trace elements found in water. The original taste of water is not affected. Also certificated NSF/ANSI-42 & NSF/ANSI-53

BioCote® Anti-Microbial Protection

A silver based additive incorporated into parts of the dispensing area. BioCote® kills up to 80% germs in 15 mins and over 99% germs in 2 hrs of contamination, keeping the dispensing area free from bacteria

Our water dispensers are equipped with cold and hot water functions. Designated models are also equipped with ambient, extra hot and sparkling water functions for selection. During the rental period, you will enjoy free filters and UV lamp replacement services in every year.
